

FEMKE MOONS

May 30th 1997

Born to be a babysitter.

From Belgium,
living in Arroyo de la Miel, Benalmádena

I am Femke, a spontaneous, enthusiastic and positive woman who loves children. Are you looking for a nanny or babysitter? Then I would like to help you and I will be happy to take care of your children.

When I was 15 I started babysitting for families with young and older children. I always enjoyed it so much that I never stopped. Since I moved to Spain 2 years ago, I had to say goodbye to my families.

Now I would like to go back to babysitting sporadically.

I have a full-time job as a digital guide at a travel agency. However, I trained in psychology. I speak Dutch, English and a little Spanish. And I have a great passion for dancing, surfing and hiking.

I am ready to not only watch your children, but also give them a fantastic time. I am very responsible, and at the same time I really enjoy playing with the children.

I have a very flexible work schedule. So don't hesitate to get in touch. I'm already looking forward to meeting you.
